

Best Buy

As the only advert magazine with a free readership serving the top level clientele and readers, Best buy is having better quality, real creatively enhanced graphics, rich corporate look and better pricing structure keeps it away from the existing free advertisements prints. It is classy magazine that brings new era in to the world of free advertisements magazines in Bahrain.

Driven by its stunning design layout, and photography - Best Buy now has a genuine circulation of 50,000 copies in the beginning. Now we are focusing more on reader value, and we have big plans for the future. We'll continue enhancing the look and feel of the magazine to further rich levels that increases our readership every day.

Best Buy has been differentiated in other ways. The magazine is printed using sophisticated printing technology and methods that produces rich color halftones with exquisite detail.

Best Buys is also the first free advert magazine that offers great benefits for the readers and advertisers as well.

Best Buy seeks to capture the spirit of the reader, to provide not just advertisements but an insightful review of various products across the market. We seek to serve as a guidepost, to provide bearings as we enter a new millennium.

it's new...
it's glossy...
it's bigger...
it's the best...
